## **UWC MAHINDRA COLLEGE CLASS OF 2013 UNIVERSITY PLACEMENTS**

We are privileged to have our students accepted into the world's top universities. Our Guidance Office works with individual students to ensure that they are applying to places where they will be able to pursue their own passions and be part of a community they feel comfortable in. Each student is different and unique and it is important to keep this in mind and to understand every student's talents and skills when applying to schools or colleges. All UWC students are expected to remain committed to the goals and ideals of the UWC movement throughout their lives, in ways they see fit to drive change in the world around them.
